

# Advocacy Policy

We're committed to improving the nation's health and promoting the dietetic profession.

Advocacy is essential for Dietitians Australia to achieve its vision and goals of the strategic plan.

Our Advocacy Policy details our commitment to advocacy on behalf of members. It outlines:

- what advocacy is
- how we set our advocacy agenda
- the level we advocate at (for example, national level)
- the client groups we advocate for (for example, aged care)
- our strategic advocacy objectives
