Priorities for the new ACT Government

Dietitians Australia, in partnership with Nutrition Australia ACT, is calling on the incoming ACT Government to prioritise the nutrition future of the Territory's children by boosting nutrition support services available to early childhood education and care services.

We call on the incoming ACT Government to invest in a dedicated nutrition support service for the Territory's early childhood education services, to assist staff, educators, cooks and chefs with evidence-based nutrition information and support from Accredited Practising Dietitians.
