Federal Budget 2025-26

Submission to the Australian Government Department of Treasury for the 2025-26 financial year Federal Budget.

Dietitians Australia has put forward 11 recommendations to the Federal Government to invest in a suite of measures that would improve health outcomes for all Australians.

These measures include:

- expansion of the Medicare CDM program to guarantee affordable access to essential dietetic care
- ensuring children in early childhood education and care settings receive a high standard of nutrition that parents can rely on
- securing dietetic services for NDIS participants

and

- improving our food system to ensure every Australian has access to affordable, nutritious food, and every household in Australia is food secure.
