

State Disability Plan and Victorian Autism Plan 2027-2031

Dietitians Australia has submitted a response to the **Victorian State Disability Plan and Victorian Autism Plan 2027-2031** consultations, calling for **nutrition** and **hydration** to be recognised as core priorities.

The submission highlights the essential role of Accredited Practising Dietitians in providing **safe, evidence-based** and **disability-specific support** for Autistic people and people with disability.

Dietitians Australia also calls for increased, equitable and timely access to Accredited Practising Dietitians, based on assessed need and with choice of Accredited Practising Dietitian, including **sole traders** and **private practising dietitians**. Choice should include sole traders and private practising dietitians.
