Dear Professor Kelso,

Congratulations on securing funding to commence the review of the Australian Dietary Guidelines. Review of the Guidelines is an essential step in supporting Australians to make healthy food and nutrition choices.

Dietitians Australia is the independent leading voice of nutrition in Australia, representing over 7000 nutrition and dietetic professionals in Australia. We strive to build healthier communities and the Australian Dietary Guidelines are integral to this. Our organisation was involved in the last review of the Guidelines and would once again like to extend our support.

We look forward to supporting this important work and welcome the opportunity to discuss how our organisations may work together on the review.

Yours sincerely

Robert Hunt
Chief Executive Officer
