Nutrition & Dietetics

Journal of Dietitians Australia

Why publish with us?

Nutrition & Dietetics is an international, peer reviewed journal that aims to advance the science of human nutrition and the professional practice of nutrition and dietetics.

Nutrition & Dietetics publishes articles reporting original research (including randomised controlled trials, other high quality intervention studies, longitudinal studies and large cross-sectional studies), systematic reviews, theoretically and philosophically grounded qualitative studies, expert consensus papers and practice guidelines across relevant topics in human nutrition science and dietetics practice.

Benefits of publishing with *Nutrition & Dietetics*

Impact Factor

A high Impact Factor indicates the impact of papers published in a journal in recent years. The *Nutrition & Dietetics* impact factor is currently at 1.742 and is on an upward trajectory.

Support for Promotion

Turn your findings into an engaging and accessible overview that is perfect for sharing on websites and social media. Dietitians Australia will provide support to help you develop resources to promote your research. This includes:

- Opportunity to be selected for the quarterly Research Bites webinar, free for all Dietitians Australia members.

- Support to develop your Instagram story featuring your research.
- Dietitians Australia facilitated video (30 – 60 second) for selected authors, answering 3 questions - what did you do, what did you find, what is the impact for clinicians or the audience. These will be available online and promoted to members.
- Promotion of your research to over 7500 Dietitian Australia members through various communication channels.

Altmetric score

The Altmetric score is one metric used to demonstrate the impact of your research. It covers policy uptake, media and social media influence. Dietitians Australia will increase the altmetric score of your paper through additional promotion via social media.
